Hi Deb!

Yes, we were very bummed about the occurrence. After that, I required every single server - bartender or not - to take the ABT Colorado Training Course. Everyone has completed it. I have 22 certificates in a folder at the restaurant and would be more than happy to drop off copies to you if you think that would be good. In the sting operation, the underage individual went up to the hostess and asked for a bottle of beer to go. We do have our carry out license, but of course the infraction was that the hostess took money for the beer. It's not an excuse, but it was an odd sting operation! :(

After the completion of all the training, we had a large meeting of all servers and hostesses and talked about the gravity of the situation.

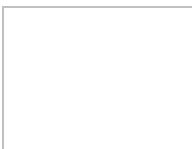

I also attended the court appearance with the hostess that received the summons and she shared her frightening experience with the rest of the staff. That was very effective!

Thank you for going to bat for us. We hate having that against us, but it sure did make every one of us more on top of our game!!

Let me know if you need anything else from me Deb!

Happy New Year!

Shelly
