BACKGROUND

The Community Development and Engineering Departments will update the City Council on the 2025 Capital Projects, specifically the S. Mesa Street Revitalization Project and the N. Maple Street Bridge replacement. These projects are primarily grant-funded, with S. Mesa Street receiving \$1.7 million from the Colorado Department of Transportation and the N. Maple Street Bridge replacement securing \$1.75 million in Congressional Directed Spending and \$750,000 from Mesa County. Construction is expected to begin this year.

Engineering will provide updates on both projects, covering plans and specifications development, scope changes, CDOT process and status, communications (businesses for S. Mesa Street and residents for Maple Street Bridge), project schedules, and budget status. This update is for informational purposes only, with no official action required.
