Agency Name

The Garden City Police Department was on track to complete **6,000+ calls for service** during this period, but the department saw a significant drop to an end-of-year total of **5,217 calls for service** without administrative calls removed. The call reduction factors include:

- Staffing totals were reduced due to vacancies throughout the year.
- Weather was warmer going into 4th quarter which eliminated need for the cold weather shelter.
- Entities changed their policies and environments to target-harden to reduce problem crime areas.
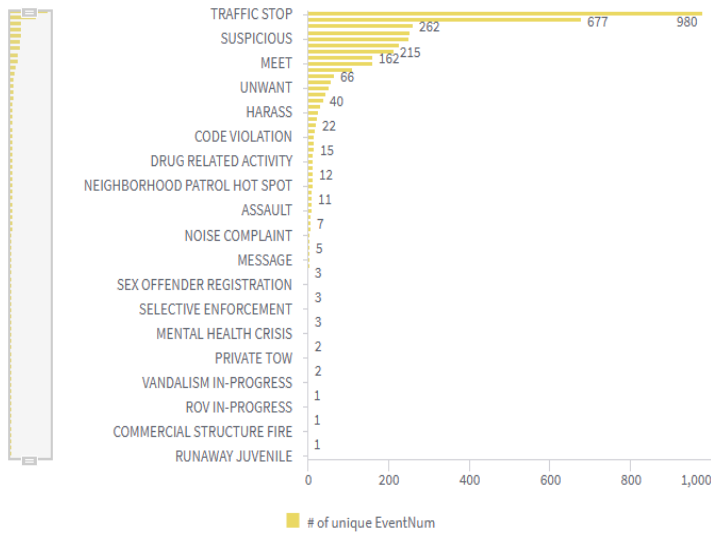

Even with the reductio0n in calls, the Garden City Police Department saw an increase in call load by approximately 12% from prior years due to the increase in community issues that the town faces together.

Agency Name

GARDEN CITY POLICE DEPARTMENT	147

# of unique ArrestNum
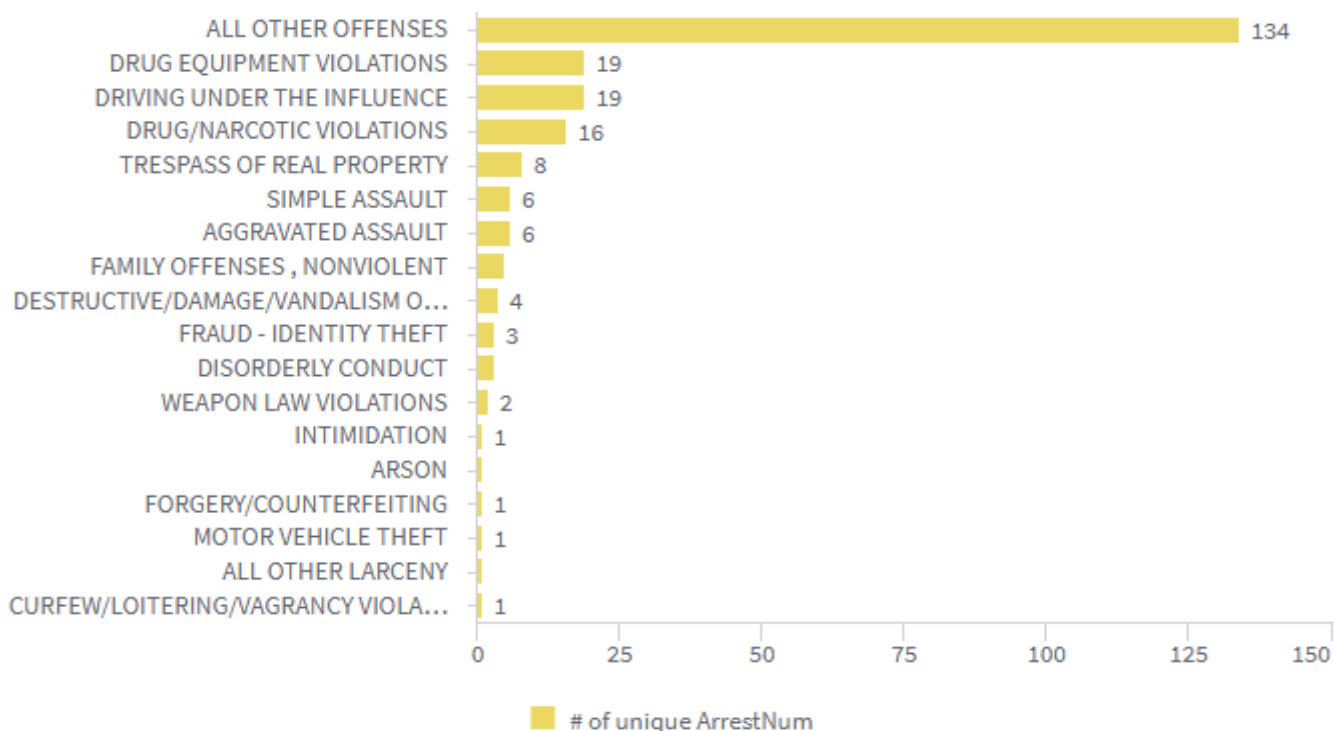

**Garden City Police Department's total arrest count for the year unfortunately is higher than a combined four other sister agencies of significantly larger size, and their town populations are 2,500 – 10,820. Being that the jurisdictional boundaries are between Greeley and Evans, Garden City Police Department faces significant crime challenges with less resources. The same expectation of service applies to this department as required by larger departments.

Future Goals:

     With events and online/social media, the Garden City Police Department will work towards fine tuning our community engagement and understanding the relationship in resource management to learn more about others access to the department in the community. With the GCPD building expansion, the department will be better positioned to provide secondary service to the community and understand the larger scope of our impact therein. We hope to negate violent crime within our community and to work collaboratively with our partner entities to better reduce crime overall and provide even more effective police services.
