Site Plan Application

Application #SA - 003-25 Original SP# (Oct 10, 2006)

Submission Requirements: An application for Sketch Plan Review will consist of one set 11"x17" site plan maps plus a digital file in *.pdf format which includes scale, north arrow, legend, abutters, title block, with supporting data to include items listed on the attached checklist, and as approved in the original Site Plan. The application will not be deemed complete until all required materials have been submitted. Failure to submit a complete application, as defined herein, shall be grounds for denial of the application by the DRB.. Applicant must also submit a list for all abutters, including those across a public or private right of way. **Incomplete applications will be returned and will delay scheduling your hearing.**

SECTION 1: OWNER/APPLICANT INFORMATION (complete all)

Owner(s): Michael & Carrie Tourville
Address: 279 Bronson Road
Georgia VT
Zip Code 05478 Telephone 802-355-7213

Description of proposed project: (Please describe here or attach a separate proposal)

We are requesting to dissolve the existing building envelope that is shown on the original Subdivision plat (map 283 - Slide 149) also
noted on the Day Land Surveying Site Plan Ref #1. We are looking to install a shed in the future that falls within the town zoning regulations as well as make sure
we are in compliance with all other structures. With the current building envelope we are not able to do so.

Names and addresses of abutting property owners:

Lynn Denton - 207 Bronson Road - Georgia VT - Parcel ID 101590200
Mill River Farm - Parcel ID 107460000
Michael & Janet McCarthy - 353 Bronson Road Georgia VT - Parcel ID 101600000

Existing and/or proposed means of access to the site:

Existing as noted on the New Site Plan

List of plans, sketches, or other information submitted with this application:

New DAY Land Surveying Site Plan 09-02-25

Location of parking and proposed number of spaces:

None

Existing and/or proposed road & driveway access to site:

Existing as noted on the New Site Plan

Existing and/or proposed easements and rights-of-way:

NONE

Proposed and/or existing wastewater disposal and water supply:

Existing as noted on the New Site Plan

Proposed drainage/storm water runoff (if required):

None

Proposed landscaping (if applicable):

None

Size and location of proposed and/or existing buildings:

Existing buildings as noted on the New Site Plan

State permits required and/or obtained for this project:

None

Proposed lighting (if any):

None

Notes

- 1) Narratives which summarize the purpose, scope and key proposed changes to the approved subdivision and/or site plan are encouraged & may be attached.
- 2) Application standards for subdivision approval appear in the Georgia Development Regulations as Article 4. Site Plan Review and Approval standards appear in Article 3.

Site Plan Review Checklist:

This checklist is intended to be used as an aid in developing a complete application for Site Plan Review before the DRB. An application for Site Plan Review will consist of eight (8) sets of site plan maps and supporting data which will include the following information, and such information as indicated in the Concept Plan Recommendation, if applicable. The DRB may require additional information as necessary to determine compliance with the regulations.

1. Address of subject property.
2. Name and address of the owners of record of the subject property
3. Name and address of the owners of record of adjoining lands.
4. Map or survey, drawn to scale, showing existing features, including contours, land use, structures, large trees, roads, easements, rights of way, deed restrictions, name and address of person or firm preparing the map, scale of map, north point, date of map/revisions, and legend.

5. Site Plan, 24" by 36" digital file in PDF format in size and drawn to an appropriate scale, showing proposed land use areas including proposed structures, roads, driveways, traffic circulation, parking and loading spaces, and pedestrian walkways; landscaping plans including site grading, culverts, drainage, landscape design, screening, signs and lighting; name and address of person or firm preparing the map, scale of map, north point, date of map and revisions, legend, and name, address and interest of the applicant in the subject property.
6. The DRB may require that the map or survey and site plan be prepared by a landscape architect, registered land surveyor, registered civil engineer, or registered architect if the proposed project utilizes more than 3,500 square feet, including parking area, or is a complex proposal that could have impacts on surrounding property owners, major roads, or important resources.
7. Construction sequence and timing schedule for completion of each phase for buildings, parking spaces, and landscaped areas of the entire project.
8. Specifications of the materials and plantings to be used.
9. A site location map showing the location of the project in relation to nearby town highways and developed areas at scale of one inch equals one thousand feet. 10. Uses that will generate more than one hundred and fifty (150) vehicle trip-ends per day (estimates shall be based on the most recent rates provided by the Institute of Transportation Engineers) shall include a traffic study conducted by a professional traffic engineer. The study will include details of existing and proposed ingress and egress, expected traffic volumes, turning movements, existing, and resulting levels of service, and proposed traffic control measures. The DRB may require a traffic study for projects generating less than 150 vehicle trip-ends where it finds there is a potential traffic safety issue.
10. A letter from the Georgia Fire Chief indicating any fire and rescue concerns with the proposed project.
11. A lighting plan including the location and height of mountings and/or light poles, fixture type, lamp type, wattage, level of illumination (footcandles). The DRB may require that the lighting plan be developed by a qualified professional. This plan shall show light levels, evenness, and patterns of light distribution, and should also indicate the lamp type, wattage, and lamp loss factors applied. 4
12. Sign details including dimensions, height, material, and proposed lighting.
13. At the request of the applicant, the DRB may waive any of the above submission requirements, but only where it finds that the size and scope of the application is such that the requirements represent an undue burden on the applicant and are clearly not necessary for the Commission to make findings on the application consistent with the requirements of these Zoning Regulations.
14. All fees according to the Permit Fee Schedule on the website at:

Fee Schedule

Decisions

The DRB shall act to approve or disapprove Site Plan applications in writing within forty-five (45) days after closure of the public hearing. Failure to act within the 45-day period shall constitute deemed approval on the 46th day. The DRB may recess and continue a hearing pending receipt of requested information, and non-submittal of requested information shall constitute grounds for Site Plan denial. The DRB shall prepare written findings-of-fact and conclusions setting forth background and rationale for their decision. The DRB may attach conditions of approval to ensure the intent of applicable bylaws and the municipal plan are met.

Site Plan decisions shall be distributed per requirements in Title 24, Chapter 117, Section 4464(b)(1)(3), Vermont Statutes Annotated.

(FOR TOWN USE ONLY):
