- Chair Cross introduced the hearing.

- Engineer Peter Mazurak was present for the Applicant and explained the project to the DRB, including access, road and driveway, subdivision of lots and permits.
- Lots 1 and 2 as footprint lots, where homeowners would own the land directly under the dwellings while the rest of the property will be common land. The proposed housing will be detached separate units for purchase, not for rent. The proposed houses will be small, 2 bedrooms and maybe 1 or 1 and 1/2 stories tall.
- Lot 3 is set aside for future development, anticipated commercial space for 8-10,000 sq ft building or split into sections.
- The DRB questioned why the developer is choosing condo units and why two lots for this purpose.
- P. Mazurak explained the whole lot will be common land. The driveway will be serviced by owners associations, one for residential and one for commercial. The owners of the property will retain ownership of the common land.
- Jeff Blanchard, father of abutting landowners to the North of the proposed subdivision expressed concerns with lot numbers, wanted clarification on lot numbers and wastewater plans. The engineer will change the plans to be clearer at Final Plan Approval, using wastewater permit numbers to be more specific.
