I have partnered with one of our Rescues that we use frequently in order to start a TNR program. This program is designed to keep community cats in neighborhoods but to stop them from reproducing. This program allows us to fix both male and female cats. What we are doing is going in and trapping them and then taking them to Weatherford or Burleson one day a week to have them fixed. Once they are fixed, they will be released back into the neighborhood that they were caught in. If you have any questions on this program, please feel free to contact Christy.
