Old definition: Freestanding sign. A sign not attached to a building. A freestanding sign may be either a pole (pylon) sign or a monument sign.

New definition: A sign supported by structures or supports in or on the ground and independent of any support from any building or wall. It also means any non-portable sign supported by a fence, retaining wall, or by upright structural members or braces on or in the ground and not attached to a building. A freestanding sign can have one or two sides and can have messages on each side.
