PREPARED BY:	Jim Holder, Director of Public Works	DATE SUBMITTED:	11/08/2023

	Amount Budgeted:		\$00.00
	Appropriation Required:		\$00.00
CITY ADMINISTRATOR APPROVAL:			
SUMMARY:	<p>The new pump station at Well Site 2 will allow water to be pumped into the standpipe at Well Site 4. In doing this it would provide the water system with redundancy by having the ability to fill the standpipe with either well 2, or well 4. This will be an advantage when a ground storage tank needs to be emptied for maintenance, or if a water well is out of service.</p>		
RECOMMENDED ACTION:	<p>Approve Work Order No. 43</p>
