SUMMARY:	<p>Jake McAdams of Public Management, the firm which handled the City's most recent CDBG grant has reviewed the City's position against the grants scoring metrics and believes the City only has about a 10% of securing a grant this time around. The City's score is negatively affected by the fact that the City received a CDBG grant within the last six years. A considerable amount of staff time is required when applying for a grant. Since the City's chance of securing a grant seems to be rather bleak, does the Council wish to pursue a grant or pass this time around?</p>
