CITY ADMINISTRATOR APPROVAL:			
In February 2026, we experienced several consecutive days of single digit freezing weather. Apparently, water found its way under the existing asphalt along much of Texas Drive. The water then froze and caused the asphalt to fail once traffic started using the roadway. The existing surface is a chip seal asphalt installed 14 years ago. This is not a paving project that was planned and budgeted for but there is \$540,000. currently in the FY2025-2026 paving budget. The \$540,000 was approved for other paving projects. Reconstruction of Mesa Drive was postponed until the vacant lots were completely built out, and \$150,000 of the \$540,000 was approved for miscellaneous paving. The chip-seal process can not be successfully completed in the spring months so we have been waiting for July-Sept. Sealed bids were accepted for the Texas Drive Paving Project until 10am on Wednesday, August 5, 2026.
