**REVIEWING COMMITTEE:** (Reviewed by the Public Safety, Health, and Environment Committee on 07/14/2025)

**SUMMARY:**

<i>Vendor Name</i>	<i>Total Cost</i>
Weaver Consultants	\$61,100 + \$22,200 = \$83,300

**PURPOSE OF REQUEST:**

The City of Grand Prairie Landfill is required to monitor groundwater in up-gradient and down-gradient wells on the perimeter of the property per state and federal regulations. This requirement provides detailed information to the Texas Commission on Environmental Quality that shows the comparative quality of groundwater before it flows under the landfill and after it has flowed past the landfill boundary. This sampling analysis and reporting is a requirement for all Type I landfills in the state of Texas. This sampling must be performed in accordance with the facility’s Groundwater Sampling and Analysis Plan (GWSAP). Current reporting requirements are twice per year, with the possibility of verification re-sampling, if contaminants are detected. For this reason, the multi-year contract is for \$61,100, with a contingency amount of \$22,200 in case verification of re-sampling is required.
