*Ron Stuart, 3309 Oak Hollow, Plano, supports the ownership group. Mr. Stuart discussed having 24/7 food, beverage and water service. He said the clientele are more independent and there would be a cooktop and microwave in each*

room and they would provide access for food delivery. Mr. Stuart advised that four stories are more common in an urban metro area.

He said he reviewed other Marriott hotels in Grand Prairie, some near a high school and advised public safety issues are unfounded.

Andrew Smith, 416 Merriman Drive, Highland Village, said he is the landowner and confirmed this is the highest and best use. He said he obtained site plan approval for a retail site but could not get a high quality national tenant and discussed problems with access. He advised this would generate the most tax revenue of any use that has restrictions of access. He described his personal use of short term stay hotels three times.

Jonathan Plunket, 4924 Winding Trail, said he is a resident since 2001, a retired police officer, and discussed problems many extended stay hotels have. He advised of his discussion with NSA Storage who was not aware of the hotel's plan to build there and said the storage company wanted to expand but they were denied. Council Member Johnson asked if notices were sent, and Ms. Ware confirmed they were sent to property owners within the 300 foot radius.

*Kenneth Black, 3012 Blacksmith Ct, said he was offended by Council Member Johnson's comment. He said he served in military and pays taxes, is the president of Horseshoe Bend Community and said these people are business owners not residents.*

*City Attorney Maleshia McGinnis read the names of those who recorded their opposition but did not wish to speak: Sarah Black, 3012 Blacksmith Ct; and Loraine Smith, 3020 Smith Ct.*

*Council Member Shotwell noted the notices go to the school district, not the school itself, goes to homeowners not to those who rent per state law and advised there are signs on the property. He also noted the property can only be zoned for certain things. He noted this a new product for Marriot, a midscale platform but it is not economy. Council Member Lopez said the location makes a difference in this matter, and he is not opposed to Marriott. He said he understands the landowner will develop the property somehow and recommends the group representing a hotel or the landowner reach out to the neighborhood for input before moving forward. Council Member Johnson asked the community to provide input to the property owner to consider what they would like there. Mayor Jensen said the landowner can put a number of things there without council approval.
