Subject: ZTrak Quotes

Hi Everett,

After attempting to order a Z997R from John Deere, I found that they are not available to order at this time. I checked on the two we have on order and learned that they are unfortunately already spoken for. The Z994R has 12.7hp less and is also diesel but is showing available to arrive in May. I have included two quotes for the Z994R if you are willing to consider that model – one for the side-discharge deck, the other for rear-discharge deck. I also included a print-out of the comparison between the Z997R and Z994R. If you have any questions or would like me to look for a different machine, please let me know.

Thank you!
