Guidelines for selection of materials for the Grand Rapids Area Library

Introduction: The Library's efforts in obtaining, developing access to, and withdrawing materials will be focused on fulfilling the Mission, Vision and Core Values as defined in the Long Range Strategic Plan of the Library Board. The Board's policy on collection development is as follows:

Statement of Collection Scope

The Grand Rapids Area Library Board of Trustees acknowledges the Library's responsibility, as a reference and referral library of the State of Minnesota, to provide materials to meet the varied information needs of the public it serves and to fill at least 95% of all information and title requests from locally available resources.

Inclusiveness: The Library collection shall include representative materials of all races and nationalities, and all political, religious, economic and social views. The collection will be carefully developed in order that a full range of opinion on controversial issues will be represented, and that the needs of special groups will be balanced with general demand.

Current content: The collection will be focused on currently useful materials. Specialized research materials will be made available through participation in the Arrowhead Regional Library System and other statewide programs.

In order to keep the collection current, the Board directs that procedures be implemented to weed five percent (5%) of the collection yearly.
