

REQUEST FOR COUNCIL ACTION

AGENDA DATE: November 24th, 2025

AGENDA ITEM: Consider approving the purchase of snowplow equipment for two public works trucks

PREPARED BY: Matt Wegwerth

BACKGROUND:

The City ordered two replacement pickups from Enterprise Fleet and will receive these in early 2026. These vehicles are used for winter maintenance and require snow removal and safety equipment. The following equipment is needed:

Martin Snowplow – Plows and mounting brackets: \$15,395.70

The western plows match the current brand of the fleet, which allows for the ability to interchange if necessary. Additionally, these are listed on the State Bid for municipalities which allows for direct purchase.

EATI – Light Bars: \$1,202.78

Carquest – Running boards and back racks: \$1,998.19

Total amount of equipment: \$18,596.67

This is a 2026 budgeted purchase.

REQUESTED COUNCIL ACTION:

Make a motion approving the purchase and payment for snowplow equipment from Martins Snowplow, EATI and Carquest in the amount of \$18,596.67.
