

Dear Moose Lodge,

Thank you for attending Grand Rapids Police Department's **Responsible Alcohol Server Training** held on June 16th. The event involved 82 participants from 11 local establishments. It is our hope that the information was beneficial and provided some additional insight on the following skills:

- **Recognize and manage impaired customers**
- **Understand legal responsibilities and penalties**
- **Accurately validate IDs and navigate compliance checks**
- **Enhance relationships with local law enforcement**

With the great interest, Grand Rapids Police Department will be hosting the Responsible Alcohol Server Training presentation in May of each year. All local vendors will again receive an invitation.

You will notice that next year's presentation will involve additional information from sources such as GRPD DWI Officer, Itasca County Attorneys Office and statistics specific to our area. If you have suggestions as to what additional material should be covered, please don't hesitate to reach out.

We greatly appreciate your partnership and attendance,

Andy Morgan
Grand Rapids Police Chief
