

## REQUEST FOR COUNCIL ACTION

**AGENDA DATE:** December 4, 2023

**AGENDA ITEM:** Consider the purchase of a Snow Plow Truck Chassis for the Public Works Department

**PREPARED BY:** Matt Wegwerth

---

### BACKGROUND:

At the November 27<sup>th</sup> Council Meeting, authorization to obtain quotes on a new snow plow truck was granted.

Quotes were requested and below is a summary of the prices received for truck chassis only:

Vendor	Make/Model	Cost
Nuss Truck and Equipment	Mack Granite	\$ 149,814.11
Boyer Trucks	Western Star 47X	\$ 143,785.11

Currently, we are still reviewing equipment and attachments for this truck chassis. Due to the long lead times, we are requesting the approval to order the truck chassis, and come back to council at a later date to approve the equipment order. Preliminary estimates put the equipment around \$275k, which make the total investment around \$420k.

The purchase will be funded with equipment certificates, in 2025. Current lead times on the truck chassis summer of 2024. Equipment installation will follow, and can take 4-6 months.

### REQUESTED COUNCIL ACTION:

Make a motion to approve the Public Works Department's request to purchase and make payment for a new Western Star 47X truck chassis from Boyer Trucks in the amount of \$143,785.11
