

REQUEST FOR COUNCIL ACTION

AGENDA DATE: January 12th, 2026

AGENDA ITEM: Consider approving the purchase of a LED message board

PREPARED BY: Matt Wegwerth

BACKGROUND:

The public works department would like to purchase a replacement message board. The city currently operates 2 arrow/message boards for roadway activities; including snow removal, banner placement and roadway repairs. These boards allow public works crews to work safely within the roadway and provide proper notification to motorists of the hazards. The new board will be mounted to an existing pickup truck, which will allow us to sell the current board and truck. The board will be purchased with State Aid Maintenance funds. The equipment is listed on the MN State Bid Contract list.

Towmaster - \$10,430.00

REQUESTED COUNCIL ACTION:

Make a motion approving the purchase and payment of a ADDCO message board from Towmaster Truck Equipment in the amount of \$10,430.00.
