Agenda: Consent

Background Information: The CFAA agreement is used for response to incidents within California which require large resource commitments. These deployments are most noticeable in the summer during wildland season when our fire engines and personnel are deployed throughout the State in support of other agencies. The CFAA is the negotiated reimbursement mechanism for local government fire agency responses through the California Fire Service and Rescue Emergency Mutual Aid System. The terms and conditions that outline the methods of reimbursement are recommended for developing business practices when responding under the Mutual Aid System. In compliance with the CFAA agencies must provide to Cal OES a MOU or resolution stating employees are reimbursed portal to portal, from incident dispatch to return of incident.
