**Subject:** Public comment - Mill St parking lot

[You don't often get email from [REDACTED]. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification> ]

Hi there,

I'm writing to express my concerns about the new Mill St parking lot which is directly across the street from my house. During initial planning I was supportive of this project - the plans were thoughtfully designed, and I know that there is a need for more parking, both for downtown businesses and for local residents. My house and several of my neighbors' houses don't have driveways, so parking can be a challenge with street parking and limited spots. (Since moving here 6 years ago, my car has been totaled in an overnight hit and run, and my husband's car was towed from a legal street parking spot while we were on our honeymoon. Both major bummers!) Having residential permit spots in this lot, as discussed in early planning meetings, would be a great benefit to both residents and businesses.

However, as the parking lot has taken shape it looks less and less like the plans that were approved with the input of myself and my neighbors. The plans indicated powder coated tubular railing, but what has been installed is unsightly chain link fencing. And after we gave input at a meeting about the importance of overnight residential parking, the city was planning to create a residential parking plan for the lot - now there is no overnight parking allowed in this lot, which is unhelpful for those of us that live here.

It is frustrating to have followed the planning process, only to see something else being built. I urge the city to reassess the fencing for this parking lot, to maintain the historic charm of the neighborhood. I also ask that a residential parking program be implemented as soon as possible to alleviate some of the issues we downtown residents have with parking.

Respectfully,  
Zoe Toffaleti

As soon as I sent this I was informed by the HH that I am being kicked out of their program. Maybe the reason the drug problem is so bad at Brunswick is that the Clampers moved to there from Nevada City.

**Subject:** E. Clampus Vitus

E. Calmpus Vitus, hereafter referred to as "the clampers" and whose members are hereafter referred to as "clampers", began as a "Benevolent" organization whose main purpose was to give aid to widows and orphan's.

The advent of welfare eliminated the clampers purpose and, as I witnessed in their printed newspaper of the 70's, degraded into a drinking organization.

For those who do not know alcohol is the no. 1 step up drug to meth and as the clampers were highly vulnerable most of the local hardcore meth users and dealers are clampers.

It also appears to me the clampers decided to take positions in all the local gov't law enforcement divisions from Nevada City and GV police through the sheriff's dept. and the district attorney's office to probation and parole to ensure their members obtained preferential treatment such as, but not limited to, not usually being arrested by local law enforcement, O. R. for armed drug dealers and non-enforcement of probation rules.

To be clear, the reason children are immediately taken from drug users is because all male meth users are pedophiles while the females generally ignore such abuse but rarely contact cps or law enforcement when they do take notice.

Before meth the number one reason children were abused was alcohol.

The clampers are and have been for many decades nothing more than an organized group of lying criminals.

Also, I have received reports that women are being released from jail in the middle of the night again in someone else's clothing...

Thank You,  
Pastor Paul Jerry Carner

Message:  
Good Evening,

I am contacting you due to issues with PG&E. We have had multiple power outages this week. After speaking with PG&E it is due to their emergency power systems detecting objects hitting the lines. While I'm glad we now have this, it's clear PG&E has not done enough to clear lines of obstructions. We are paying 700 dollars a month for electricity to not have it on the hottest days of the year. What is the cury council doing to hold PG&E accountable for their continued failures in the area?

#### Message:

This message is for the city manager or the entire council. I am a concerned resident. It appears that fireworks will be set off in Grass Valley at Hwy 49 and the Dorsey Bridge. Given that we are under an Extreme Heat Advisory and a Red Flag warning, it would be I'll advised to continue with the firework display. Please, put the safety of residents and businesses first and cancel the fireworks. We will still have a parade and celebration but without adding to the risk of fire. Many lives will be at risk should something go wrong.

Thank you for your time,  
Marina Codiga
