# PART D METHOD OF APPORTIONING

In order to maintain sufficient funding for the Districts, assessments will be adjusted annually by the Consumer Price Indexes (CPI) Pacific Cities and U.S. City Average for February of the year of calculation All Items Indexes for the West.

#### **ZONE VI – Loma Rica Ranch**

#### General Benefit

The landscaping, irrigation and street lights in Loma Rica ranch and the maintenance of the landscaping, irrigation and street lights are of entirely local and special benefit to the parcels in Loma Rica, and no general benefits are provided by them. The street lighting services funded by the District constitute residential street lighting which provides safety lighting and sidewalk and parking illumination for the special benefit of assessed parcels.

#### **Apportionment of Special Benefits**

The initial assessment spread creates a yearly assessment per dwelling unit of \$57. It is the intent that each dwelling unit of the project shares equally in all expenses upon completion of Zone VI.

The annual maximum assessments shall be adjusted annually, as set forth hereinafter, based upon the Consumer Price Indexes Pacific Cities and U.S. City Average as issued by the United States Department of Labor, Bureau of Labor Statistics. The Base Index to be used for subsequent annual adjustments ("Base Index") shall be the Index published annually in February ("Base Month"). The annual maximum assessment per lot, as defined in this report, shall be adjusted every year based upon the cumulative increase, if any, in the Index as it stands on the Base Month of each year over the Base Index. Any reduction or de-escalation in the Index from one year to the next will not result in a reduction of the annual costs. The annual costs will be levied consistent with the previous year. The assessment formula is:

Assessment Per Parcel = Round (Total Assessment / # of Parcels)

When, in any fiscal year, the operational reserve fund is at a level equal to the following fiscal year's costs, any surplus in the ability to cover all assessed costs will be used as a credit to the levy for such fiscal year and individual assessments will be reduced proportionately.

The total actual assessment for 2025/2026 is \$160,060.68. Each parcel's assessment rate, as depicted in Part C was calculated by using the assessment per parcel formula shown above which evenly distributes the assessment over the number of parcels.
