Subject: Agenda item 13, April 26th

#1. The diving boards were removed from the former demolished pool. Would you discuss the addition of a *water slide* to the new pool? Or if you think a water slide may be added sometime in the future, at least discuss the addition of the cement block foundation that a future water slide would require. It would be easy to add the cement foundation while the contractor can still get around the pool water lines and there is now, of course, no cement deck to contend with.

#2. There is a peach tree by the pool that I would like to see preserved. PG&E wants to replace their gas line that goes to the pool heaters. That line runs right next to the tree. The construction of the gas line may kill the tree. If it can't be saved, will you replant another peach tree? Maybe approve \$230,080.00 just in case you want a new peach tree.

Hello Grass Valley City Council,

My name is Jasper and I am concerned for my community. I have grown up in the Grass Valley area and have seen first hand devastating effects of climate change in the form of wildfires near my home. I believe I speak for my community when I say it would mean a lot if you would update the Grass Valley general plan to include wildfire prevention measures. Keeping this document up to date will have a very large impact.

Thank you in advance, Jasper Franklin-Follansbee

Subject: Update the General Plan

Hello Grass Valley City Council,

I am Walter Helvin. I have been living here in Grass Valley for all of my life and attend high school in Nevada Country. I want to advocate for updating Grass Valley's general plan to include Climate Change acceptance, mitigation, and emission reduction measures. This is incredibly important because, as I'm sure you're aware, California, including Grass Valley has serious problems with wildfires and wildfire risk as well as pollution and destruction of our communities' natural environments. I want our town and our community to be a better place now and in the future, and the only way to do this is to take steps to prevent climate change and harmful actions against our local ecosystems. Updating our general plan will greatly help make this a reality. Please consider making this change and directly improving our town and community. Thanks for your consideration!

Subject: Update the General Plan

Hi my name is Moshe. I live in Grass Valley and attend Ghidotti Early College Highschool. I am strongly against the idea of a MINE and think it is ridiculous that just a few people getting rich from the mine will be allowed to put many in danger and destroy the environment. (Please Update the general plan to include Climate Change, and Air pollution).

Subject: Update the General Plan

My name is Axel, and I attend school in grass valley. I am concerned for the future of this area, especially with the plans to open up the Idaho-Maryland mine. It will introduce unneeded noise and air pollution to the area, which I am very against. With all these floods and wildfires due to climate change, I would like to see some change. So please update the General Plan to include Climate Change acceptance, mitigation, and emission reduction measures.

Sincerely,
Axel Baker

Hello Grass Valley City Council,

My name is Django Ruckrich. I live in Grass Valley and go to Ghidotti Early College High School in the same town. I am concerned about my community given the current climate crisis. Too many people have been forced to evacuate their homes due to wildfires in recent years. I personally know people who are still fire refugees from the Jones Bar fire last summer. The planet is warming, and our summers are filled with smoke here in California. Please update the General Plan to include Climate Change acceptance, mitigation, and emission reduction measures.

Sincerely,

Django Ruckrich

Subject: General Plan

Hello Grass Valley City Council,

Our names are Ruby Chow and Jessica McKnight, we are seniors at Ghidotti Early College High School, and have lived in Grass Valley all our lives. We strongly believe that it would be a mistake to allow the Idaho-Maryland Mine to reopen for many reasons. Our most prominent concern is the decrease in air quality and the impact it would have on our well system. Please update the General Plan to include Climate Change acceptance, mitigation, and emission reduction measures. Thank you for your consideration and your service to our community.

Thank you,
Ruby Chow (she/her)
Jessica McKnight (she/her)

Subject: Damage as a result of opening the mine.

Hello, My name is Noah. I live close to grass valley, and I go to school there at ghidotti. I'm concerned about opening the mine and hurting the area with pollution, greenhouse gas emissions, and global warming. Opening the mine is going to cause more damage than good. It will damage the lives of the people living around it and the people who live their lives here in grass valley. Please update the General Plan to include climate change acceptance, mitigation, and emission reduction measures. Thank you.

Sincerely,
Noah.
