Hi, this is Matthew Coulter from Grass Valley commenting in the Planning Commission meeting for Grass Valley. And my comments are related to things that you guys have approved but there hasn't been follow through on. And these things are continuous and ongoing and threats to the community in multiple different ways. Uh, the project over there, the side lumberjacks, um, the Honda shop, um, and mostly the one on East Bennett Street where every tree on the property was taken down. They were working within 30

Transcript: feet of South Forca Wolf Creek, both sides of the creek. And that is a brownfield site and it needs mitigation before they move soil, but they're moving soil. And I know they need mitigation to crush the house, which is the next step. Now this is next to Durham transportation. So we're talking right on the county city line, and I guess the city annexed a number years ago, approved that apartment complex. You guys are involved in that and this is what's going on and causing health issues for the people that live across the street. So you guys really need to consider that, take a look at it, see what's going on with and make sure the toxic situation is dealt with, the airborne and waterborne situation. Thank you.
