THE CITY OF GRASS VALLEY

That some achieve great success is proof to all that others can achieve it as well.”
- Abraham Lincoln

The concept of a long-range Strategic Plan was presented to the Grass Valley City Council in 2018. The purpose of the Strategic Plan was to provide a set of goals from which comprehensive programs could be developed and adopted to help direct the City’s future strategies and projects. The Strategic Plan was developed with input from community focus groups consisting of an assortment of interested citizens and community leaders. Community contributions culminated at a Citywide public forum where discussion focused on the future direction of Grass Valley and potential projects to enhance the City’s livability; seven core goals were identified: 1) *Community & Sense of Place*, 2) *Transportation*, 3) *Recreation and Parks*, 4) *Economic Development and Vitality*, 5) *High Performance Government & Quality Service*, 6) *Public Safety*, 7) *Water & Wastewater Systems & Underground Infrastructure*.

A list of strategies and projects were established for each goal based on feedback from the community, City staff and City Council. The strategies and projects will be reviewed by the City Council each year during the budgeting process and priorities will be established to determine which projects will be executed over the coming years. As projects are completed new projects will be added in keeping with the seven established Goals.

As part of this overall process City staff revised the City’s Mission statement, created a Vision statement and set of Values to help guide City employees moving forward.

GRASS VALLEY

The City's General Plan has always been built around central themes, all are key focus points of the City's current Vision:

- Preserve Grass Valley's historical character and encourage restoration.
- Expand public services to serve growing population.
- Encourage variety in residential building types and environments.
- Include high density housing areas in the town center.
- Provide better regional connections.
- Improve the circulation patterns within the City.
- Protect and improve the Downtown area.
- Diversify the economy and locate industry to avoid undue traffic.
- Preserve scenic beauty and character.

The citizens of Grass Valley value the City's rural small-town character and sense of community. Neighborhood integrity, as well as, design and establishment of community and neighborhood gathering places is a high priority for Grass Valley. Aesthetics such as trees, creeks and wildlife also play a vital role in the quality of life for Grass Valley residents. Furthermore, community members cherish the inherent sense of history in the architecture and landmarks throughout Grass Valley; therefore, historic preservation and improvements are highly important to the community.

The City of Grass Valley was incorporated as a charter City on March 13th, 1893. During the goldrush countless tin miners immigrated from Cornwall, England and settled in Grass Valley to try their hand at gold mining Grass Valley, home to two of the most lucrative mines in California: The Empire Mine and the North Star Mine. The Cornish brought with them their Cornish heritage which still permeates Grass Valley's culture, especially during annual events such as Cornish Christmas and St. Piran's Day.

Grass Valley is the largest city in Western Nevada County, as such it is the economic and cultural center for the surrounding area. The City must plan for accommodating the needs of all the people who use the City, even those who are not City residents. For example, the Center for the Arts attracts approximately 60% of their patrons from locations outside of Grass Valley city limits.

A CENTENNIAL CITY

LETTER FROM THE CITY MANAGER

It with great pleasure and pride that I present the 2018 City of Grass Valley Strategic Plan. This plan epitomizes the passion and empowerment of the Grass Valley citizens, community and business partners, Mayor and Council Members, as well as, the entire City staff. Without the participation and contribution from every member of Grass Valley, this plan would never have come to fruition. The goals and projects presented in this strategic plan are the result of multiple meetings and countless discussions regarding the well-being of our City and how to best improve our unique identity as we plan for the future.

The City of Grass Valley initiated the strategic planning process in the spring of 2018. The City's mission, vision, and values provide the foundation for the plan's seven key goals: Community and Sense of Place, Transportation, Recreation and Parks, Economic Development and Vitality, High Performance Government and Quality Service, Public Safety, and Water and Wastewater Systems and Underground Infrastructure. We developed the strategic objectives (projects) in each Goal via extensive analysis of citizen needs and desires, community leaders and local business owners' feedback, local and statewide trends, and information provided from various professionals within the City's organization. These objectives will be the guiding force for all the future projects, plans and services prepared by the City in the next fifteen to twenty years.

The Strategic Plan is a tool that clearly identifies the City's responsibility to protect and provide for the Grass Valley community. The plan prioritizes the City's needs and directs the government in decisions regarding development of the City of Grass Valley. I am completely confident that our Strategic Plan's emphasis on accountability, partnerships, innovation, and efficiency will promote a comprehensive and responsive City budget that balances the diverse needs of our community.

I would like to thank all the citizens who devoted their time and perspective to help develop this Strategic Plan. I'd also like to share my appreciation for the Mayor and Councilmembers' constant leadership and support, as well as, the whole City staff for their unabating hard work and commitment to Grass Valley.

Sincerely,

Tim Kiser
City Manager
