Background Information: The Disaster Mitigation Act of 2000 requires all jurisdictions to be covered by a Pre-Disaster All Hazards Mitigation Plan in order to be eligible for Federal Emergency Management Agency pre and post-disaster mitigation funds. The plan seeks to reduce risk associated with natural hazards, whether severe thunderstorms, floods, severe winter weather, drought, heat waves, earthquakes, dam failures, or wildfires. It also recognizes the importance of enhancing the ability of jurisdictions to withstand natural hazards as well as the importance of reducing human suffering, property damage, interruption of public services, and economic losses caused by those hazards.

The City of Grass Valley fully participated in the Federal Emergency Management Agency prescribed mitigation-planning process to prepare this Multi-Jurisdictional All Hazards Pre-Disaster Mitigation Plan, available to view at the following webpage:

Seven local jurisdictions, including Grass Valley, participated in the planning process and will be adopting the plan. This joint adoption demonstrates the jurisdiction's commitment to fulfilling the mitigation goals and objectives outlined in this Local Hazard Mitigation Plan. The plan has been completed and tentatively approved by the California Office of Emergency Services and will be adopted ahead of Federal Emergency Management Agency Region IX approval.
