

City Council Work Session Agenda Summary

July 12, 2022

Paul Trombino, Public Works Director, 970-652-3809

Title:

16th Street Enhancement Project Update and Discussion

Background:

In 2021, the Colorado Department of Transportation selected sixteen transportation projects worth approximately \$22 million as awardees for the Revitalizing Main Streets Grant opportunity. As a part of this process, the City of Greeley's *16th Street Corridor Enhancement Project* was among the selected projects and was awarded two million dollars.

The project extends from 7th Avenue to 11th Avenue on 16th Street and is intended to create a safer, more inviting atmosphere on a vital corridor which serves as the gateway between UNC and Downtown through improved streetscape elements and safety measures.

This project was identified as a top priority by UNC and Downtown Districts. The enhancements will promote a more welcoming environment to pedestrian and bicycle traffic and support the local business community by creating opportunities to expand outdoor dining space for restaurants and coffee shops.

The project has completed its concept design and PW Staff will present an overview of the outreach efforts and the preferred design based on input from the Stakeholder group, businesses, public and Citizen Transportation Advisory Board. The project will next move to final design process and is slated for construction in 2024.

Strategic Work Program Item or Applicable Council Priority and Goal:

Image: Reinforce Greeley's vision as an attractive and vibrant community in which to live, learn, work and play.

Infrastructure & Growth: Establish the capital and human infrastructure to support and maintain a safe, competitive, appealing and successful community.

Decision Options:

PW Staff is seeking feedback on the preferred design.
