Title:

Public Hearing and Second Reading of an Ordinance for Conveyance of Easements for the Loveland Centerra Trail at Boyd Lake Water Treatment Plant

Summary:

This ordinance authorizes the conveyance of two (2) recreational trail easements across a portion of the Boyd Lake Water Treatment Plant property owned by the City of Greeley, to allow the City of Loveland to construct and maintain an extension to their Centerra Trail recreational use trail project.

The City of Greeley's ("Greeley") Boyd Lake Treatment Plant, located along the south side of Boyd Lake in Loveland, provides seasonal drinking water to Greeley water customers and supplements the Bellvue Water Treatment plan by providing additional treated water supply in times of high demand, usually between April and October.

The City of Loveland ("Loveland") has planned a trail expansion project to construct a hard-surface trail between Denver Avenue and Boyd Lake Avenue along the south short of Boyd Lake, just west of Centerra. A portion of the trail is designed to cross the northern boundary of the property owned by Greeley as shown in Attachment 1.

Site meetings have been held with Greeley Water & Sewer staff to review the proposed trail location and request adjustments, as needed. Water & Sewer staff have reviewed and approved a final alignment of the trail, ensuring that the planned location and service road crossing do not interfere with current or future property needs by Greeley.

In order to construct the trail, Loveland needs to acquire two (2) permanent recreational trail easements on Greeley's property. An appraisal has been completed for the value of the easements and Loveland will compensate Greeley in the amount of \$131,800 for the easement interests.

Department Staff have been in coordination with Loveland staff and consultants and set certain requirements for signage, safety and security.
