

Work Session Agenda Summary

May 23, 2023

Adam Turk, Police Chief

Paul Trombino, Public Works Director

Title:

Traffic Technology to Address Safety and Quality of Life in Greeley

Background:

City Council requested the Police Department and Public Works to research technologies available for traffic calming, specifically to include speed/red light cameras and decibel measuring devices, to improve public safety, wellbeing and quality of life in Greeley.

Public Works and the Police Department have researched various technologies and contacted surrounding agencies who have or continue to utilize technology to address traffic and quality of life concerns. This includes red light cameras, mobile speed units and noise reduction/enforcement technology.

Strategic Focus Area:

Infrastructure and Mobility

Quality of Life

Safe and Secure Communities
