Title:

Introduction and first reading of an ordinance changing the official zoning map of the City of Greeley, Colorado, from H-A (Holding Agriculture) to PUD (Planned Unit Development) for 822 acres of property located south of U.S. Highway 34, west of State Highway 257, and east of CR 17, known as the Delantero PUD

Summary:

The applicant, Rick Haering, on behalf of APEX VISTA, LLC, is requesting a rezone for the purpose of developing a mixed-use development consisting of residential, commercial, and industrial uses known as the Delantero PUD. As Preliminary PUD Plans require only a public hearing, that request would be scheduled for June 7, 2022, to be presented alongside this rezone.

The proposed PUD would consist of a mix of residential, commercial, and industrial uses. Parks, open space, and trails are incorporated into the project to allow for pedestrian connectivity throughout the development and to connect to future trail systems. Residential units would include single-family detached, courtyard single-family detached, two family attached, townhomes, and multi-family throughout the development. Approximately 421 acres is intended for residential development. It is anticipated that the number of dwellings could range from 2,418 to 5,841 residential units.

Commercial and industrial areas are planned to be next to major roadways to minimize impacts to lower density residential. Commercial and industrial areas would account for approximately 110 acres of the overall development. A school site is planned to be centrally located within the development. Community amenities would include several parks that would provide recreation opportunities. Parks and open space would account for approximately 140 acres. The remaining acreage would be used for rights-of-way, detention ponds, and existing oil and gas facilities.

The Delantero PUD has provided specific land uses for each planning area alongside specific development standards. A total of eight planning areas are proposed as part of the overall development. Reduced lot sizes, setbacks, and variations in building heights as proposed are supplemented by specific residential development standards to ensure a cohesive environment, as well as trail connectivity and access to parks and open spaces).

The Planning Commission will consider this request on May 10, 2022.
