## Title:

Introduction and first reading of an Ordinance amending Title 12, Chapter 3 and Title 20, Chapter 3 and Chapter 4 of the Greeley Municipal Code Relating to the City of Greeley's Municipal Separate Storm Sewer System

## Summary:

The City of Greeley holds a Municipal Separate Storm Sewer System (MS4) permit mandated by the Environmental Protection Agency (EPA) and Colorado Department of Public Health and Safety (CDPHE). The MS4 permit is a general permit under the National Pollution Discharge Elimination System (NPDES) that authorizes the City of Greeley to discharge uncontaminated stormwater from their storm sewer system to Waters of the State and Waters of the United States.

The MS4 permit requires the City to have enforcement capabilities in their construction, post construction, and illicit discharge programs. In 2019, the City adopted enforcement capabilities for these programs. However, CAO reviewed the language that was adopted during an enforcement proceeding and found that changes to the code were needed to adequately enforce administrative violations. These changes are intended to rectify those issues identified by CAO. The new violations designated as misdemeanor offenses were added to enhance enforcement of the requirements of the MS4 permit.
