## Title:

Water Conservation 2023 Score Cards

## Summary:

The 2022 Water Efficiency Plan (WEP) implemented a triple bottom line approach that centered water efficiency around a sustainable water future. The three categories for water sustainability are community, prosperity, and water conservation management. To track progress and provide accountability and transparency, annual score cards were created.

Staff will summarize the annual score card process and discuss the 2023 score cards.
