Title: WATER SUPPLY UPDATE AND ADEQUACY DETERMINATION

Summary:

Staff reports to the Water and Sewer Board ("Board") in April, July, and November of each year on Greeley's water supply status. In April, the Board makes a declaration concerning the adequacy of the Water Year. Based on projected storage, staff recommends that the Board declare an "Adequate Water Year," with normal watering restrictions and authorize staff to rent out available excess water supply, so long as the target storage volume of 21,300 acre-feet is maintained.

Recommended Action: FINDING OF ADEQUATE WATER YEAR AS OF APRIL 2022
