### Statement of Proposed Change

The Applicant seeks a land use classification for the Property of MU Mixed-Use, and to rezone the Property to C2-Commercial High Intensity. Currently the Property is located in the unincorporated area of Clay County with frontage on the southwest line of County Road 209 South. Its County land use category is IND Industrial, and its County zoning is IB Heavy Industrial. Across County Road 209 South to the east, the Property is adjacent to two parcels, one of which is located within the corporate limits of the City and the other is in the unincorporated area of Clay County. The City parcel is a large tract of land having a land use classification of MURP Reynolds Park Mixed Use and a zoning of M-2 Industrial. The County parcel is a large portion of the Bayard Conservation Area having a land use classification of Recreation/Preservation and a zoning of Agricultural. The Property is proximate to the US 17/First Coast Expressway interchange (see the Attachment 1 Aerial Map) around which a variety of uses consistent with interstate interchanges are anticipated. The Mixed-Use land use category and the C2 Commercial High Intensity zoning best accommodate that variety.
