

STAFF REPORT

CITY OF GREEN COVE SPRINGS, FLORIDA

TO: City Council **MEETING DATE:** June 1, 2021
FROM: Michael Daniels, AICP, Planning & Zoning Director
SUBJECT: Modification of Professional Services Agreement between Geographic Technologies Group (GTG) and the City of Green Cove Springs to develop a comprehensive online mapping system *Michael Daniels*

BACKGROUND

On February 16, 2021, the City entered into a Professional Services Agreement with GTG to develop a comprehensive online mapping system. As staff has worked with GTG on this project, the scope has been modified to include a 3D component. GTG will generate building footprints from aerial imagery, assign height estimates using Lidar for reference, and clean up the building representations within the Central Business District. As a result, an amendment to the original professional services agreement has been submitted. Services for the creation of the 3D Component shall be paid for out of the Technical Assistance Grant. The modified Professional Services Agreement and Scope of Work have been included within the Council Packet. Additional Attachments include the existing, revised and proposed amendment to the Grant Agreement between the City and the State Department of Economic Opportunity (DEO) and the proposed amendment to the Professional Services Agreement.

FISCAL IMPACT

The funds for this project (\$40,000) have been awarded to the City by the Florida Department of Economic Opportunity (DEO) as part of the Community Planning Technical Assistance Grant, Agreement #P0402 (attached).

RECOMMENDATION

Staff recommends approval of the modification of the GTG Professional Services Agreement.
