Project Proposal

Green Cove Springs: 2021-2022 Sanitary and Stormwater CIPP Lining

Nov 04, 2021

Prepared For:

Greg Bauer

Engineering Technician/Safety Officer

Green Cove Springs, City of

GBauer@greencovesprings.com

About Us

Mission & Vision

To restore every community's underground pipeline infrastructure with integrity and accountability using the most advanced trenchless technologies.

At APT, we are your partners in the pursuit of conquering failing infrastructure, one pipe at a time. We instill value and innovation, above and below ground, in our pursuit to fix your community's pipeline infrastructure.

Our Value

Working With Integrity

Integrity and accountability are at the forefront of everything we do at APT.

Full Circle Solutions Provider

We offer a wide variety of comprehensive inspection and rehab services so you can use one trusted contractor.

Leadership, In Every Role

At APT, everyone is a leader, and we empower our field teams to make decisions on the fly to support your team in the best manner possible.

Experience

With a team that has over 150+ years of combined industry experience and over 3 million+ feet of inspection & CIPP rehab experience, we provide top quality services.

Who We Are

At APT, we are your partners in the pursuit of conquering failing infrastructure, one pipe at a time.

The team at APT loves helping communities, large and small, advance their goals of overcoming challenges related to pipeline infrastructure that every community faces.

By using advanced technologies and most importantly, a team of individuals that are committed to excellence every day in the pursuit of serving each of our customers, we are certain that we can offer each client maximum return on investment for your local community.

Some of Our Services

Pipe Cleaning

While pipeline cleaning is a relatively straightforward process, it still takes an expert team to do it right the first time.

Here at APT, we have the best personnel in the industry and a high level of accountability to ensure we meet your needs on every cleaning project.

Inspection Services

We offer comprehensive pipeline inspection and condition assessment for pipes from 2" – 203" in diameter.

Understanding your pipeline infrastructure condition is critical to determine life-cycle analysis and potential next steps for rehabilitation based on the overall condition.

CIPP Rehabilitation

Full trenchless pipe rehabilitation at a fraction of the cost of traditional dig-and-replace methods.

Whether you need services in small diameter laterals, sanitary sewer mainlines, or storm lines; we have your team fully covered.

Manhole Rehabilitation

We understand the importance of this often-overlooked sewer asset. Despite manholes often being referred to as the sewer system's windows, they have been mainly overlooked for inspection and rehabilitation efforts up until recently.

APT offers a list of rehab solutions for every manhole scenario.

Inspection Data

Data is important and so it is keeping it safe! APT uses a comprehensive data review cloud platform for inspection review and offers, as an option, unmatched 5-year post-contract data archiving for your team.

All our data complies to NASSCO standards and can be integrated into a variety of programs.

GPS Surveying

GPS collection for any infrastructure asset with sub-foot level accuracy.

By using advanced GPS collection devices, we can give your team highly accurate coordinate data in a variety of formats supporting your GIS efforts.

Some of Our Clients

Recent Client Testimonial

"Myself, and my staff were very impressed with the professionalism, knowledge, and capabilities APT has at their disposal. We are looking forward to working with APT in the future and would recommend APT to any municipality to utilize the services they provide."

Matt Surrency | Mayor of the City of Hawthorne

Green Cove Springs: 2021-2022 Sanitary and Stormwater CIPP Lining Proposal*

Proposal Date: Nov 04, 2021
 Expiration Date: 90 Days from Nov 04, 2021

Prepared for Green Cove Springs, City of

Service Reinstatement***	\$150.00	6	EACH	\$900.00
CYPRESS AVE- STORM SEWER				
Mobilization	\$0.00	1	Per Issuance	\$0.00
Maintenance of Traffic	\$200.00	1	DAY	\$200.00
TV Inspection	\$1.00	233	LF	\$233.00
Mainline Cleaning (24"-48")	\$5.50	233	LF	\$1,281.50
CIPP 42" x 19.5mm	\$182.00	233	LF	\$42,406.00
Total				\$110,183.50

*Please note pipe diameters to be verified during CCTV, if variations exist pricing will be adjusted based upon Milton

Piggyback Pricing.

** For the 285' run on Clay St. I would recommend having the liner material on hand during the cleaning phase, if or when we get the line cleaned we should install ASAP. If the line is collapsed and needs a point repair we can either install in another local location, or the city will be billed the cost of the liner which would equal \$12,825.00. Another option would be to install the liner after the point repair but this would need an adjusted mob fee of \$5,000 for this one line segment.

***Quantity of service reinstatement to be determined.

Sincerely,

Mark French
