**Subject:** 40 x 80 building

CAUTION: This email originated from outside of the organization. . Do not click links or open attachments unless you recognize the sender and know the content is safe.

We propose to dig form and pour a 40 x 80 building with 3000 PSI commercial concrete.  
This will include a 4 inch floor with wire specified in the blueprints.

This also will include the footing specified in the blueprints with the steel cage.

We also included bug spray for the slab and the building.  
After the bug spray goes on we will put the six mill plastic down within an hour.

At March 4 we gave you a price.  
\$24,800.00

Due to the market and cost of materials this is the new price this price could change if it takes too long.  
Unfortunately we have to check these prices weekly.  
\$31,298.00

(((This increase was all materials steel concrete plastic And fuel. )))

If you have any questions please give chip Walker Cw Builders And Associates Inc.  
904 759-9577  
Thank you 🙏
