

STAFF REPORT

CITY OF GREEN COVE SPRINGS, FLORIDA

TO: City Council Regular Session **MEETING DATE:** September 2, 2025
FROM: Mike Null, Assistant City Manager
SUBJECT: City Council approval on First Reading of Ordinance O-17-2025 authorizing reclaimed water (irrigation) rate changes for Fiscal Year 2026. *Mike Null*

BACKGROUND

In late 2023 / early 2024 city staff in collaboration with the city's consultant, Mittauer & Associates (now CPH), conducted a review of the capital improvement program (CIP) and operating expenses for the next ten years in the water, wastewater and reclaimed water funds. The review included depreciation of assets, projected increases in operating costs, infrastructure improvements for regulatory compliance and population growth, and financing options for capital projects. The result was an updated rate study which was reviewed by the council in January of 2024.

Since council review, we have received the FY23 and FY24 auditor's reports. Similar to the 2023 electric rate study, this study was based on FY23 unaudited numbers. As staff stated in the electric rate study, the FY23 audit revealed discrepancies from the unaudited numbers. Additionally, as explained at the July 15 City Council Meeting, there are several potential large projects that affect all three rates, but the legislative requirements and potential funding sources and partnerships make that project list very fluid. As a result, the rate study for water, wastewater and reclaimed water needs to be updated. That will occur in the coming months.

In the meantime, staff has worked with the finance department to incorporate the results of the FY23 and FY24 auditor's report / findings as well as lessons learned from the electric rate study to develop the FY26 proposed budget and to further refine the rate proposals for FY26. The immediate focus is to balance the existing rate study with known changes and proposed revenues and expenditures in FY26.

RECLAIMED WATER:

The City will be bringing reclaimed water customers on in the next couple of months. As such, we do not have historical data to base rates on so reclaimed water rates are being proposed the same as potable water irrigation rates. Changes to City Code are proposed as follows:
