Monthly FMPA Report
2026

September 2026

Rate Call

The average price of natural gas for the month was $4.20 Natural gas prices over the last 30 days have ranged between $2.64 and $2.91. Natural gas storage remains above the five year average and similar to the prior year. LNG terminal maintenance has depressed exports and helped keep natural gas prices lower.

The projected rate for September and October is approximately $77/MWh and $79/MWh respectively.

Natural gas accounted for 77% of the generation mix. Coal was 77%; nuclear was 4%. Solar generation was 3%.

The peak for the month was on 9 July at 5 PM.

Board of Directors

There were no Board action items this month.

The information items covered the 2026 Member Satisfaction survey, annual safety update, CEO and CLO evaluation process and draft goals for FY27.

Executive Committee

The Executive Committee approved the inclusion of the Indian River credits from audit finds in the FY26 rates and the subordination of utility interests to FDOT for SR 400.

Information items covered the results of the ARP Series 2026A&B bonds, draft parameters for serving “real-time” computing centers, diesel fuel policy, FGT pipeline expansion project, annual safety update and draft goals for FY27.

Sunshine Law

There is an issue with harassment law suits based on California law regarding tracking on websites. It may be worth having the City attorney review the City’s website and provide a recommendation. Even though FMPA does not track clicks on its website, they’ve decided to provide a notification to ensure avoidance of any frivolous law suits.
