The subject property known as Truemont Materials is located at 4169 CR 15A, parcel number 38-06-26-016515-001-00 and is approximately 24 acres. Truemont Materials, soon to be known as Manthei Innovation Park, is currently within the Clay County jurisdiction with a zoning designation of IB Industrial and with a land use designation of Industrial. Following a joint application for annexation into the City of Green Cove Springs, this request to rezone and amend the land use is to propose M2 Industrial District anticipating continued industrial use, while expanding existing buildings and planning for additional developments. Some additional developments may be business and professional offices, material storage, manufacturing and sales of concrete products, plastic products, etc. all allowed by right per the permitted uses of the M2 Industrial District Municode, section 117-331.

The subject property currently has 2 existing ingress and egress and proposes a third as seen in the attached preliminary site plan. The western property line of the subject property is adjacent to County Road 15A. The remaining property lines share a boundary with the surrounding uses within the City of Green Cove Springs. South of the subject property is vacant land zoned Planned Unit Development. The northern and eastern properties are zoned recreation and conservation. All required landscape and development buffers between the districts are applied and these can also be seen on the attached preliminary site plan.

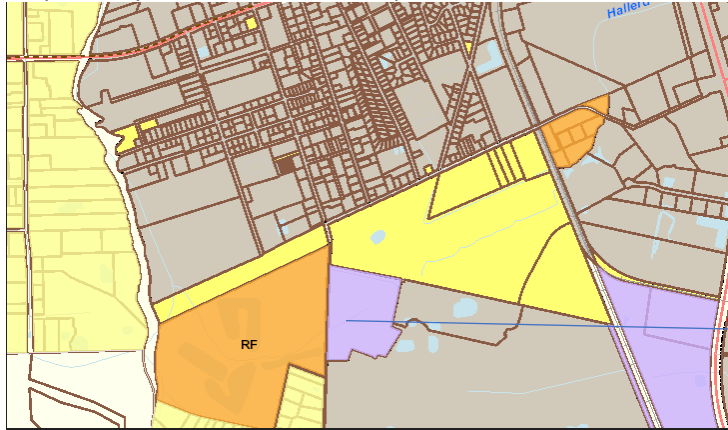

Since 2022, Truemont Materials has been an integral part of the growth of Green Cove Springs and surrounding cities including Orange Park, St. Augustine, and Jacksonville. Continued use of this property for industrial purposes will contribute to the advancement of Green Cove, Northeast Florida, and South Georgia. The additional developments mentioned above are projected to create approximately 300 jobs within the city of Green Cove Springs. As Truemont Materials further expands the city's growth, the city can ensure rapid police response time making the business a safe space work at and live near. Existing neighbors have shared their excitement for the expansion of Truemont Materials. Green Cove Springs

has much to look forward to upon the development of its first Innovation Park with its materials soon to be approved by the Florida Department of Transportation.
