BACKGROUND

Habitat for Humanity has applied for a future land use amendment from Residential Medium Density to Residential Professional Office and a concurrent zoning change from R-2 to Residential Professional Office for the subject property. The applicant is proposing building an office on-site, which would be constructed to be compatible with the surrounding uses. Approval of the land use amendment and rezoning would not guarantee approval of the proposed site development.

PROPERTY DESCRIPTION

The property is located at the corner of West Street and Walnut Street. It is approximately 0.454 acres. There is a small structure on site noted as a utility building by the Property Appraiser, located in the northwestern corner of the property. A demolition permit was issued for a single-family residence on the property in approximately 2010. The site is partially wooded with a combination of oak and cedar trees. There is a five-foot sidewalk constructed along Walnut Street abutting the property. There is not a sidewalk along West Street, but there is a curb cut into the property from West Street.
