Informalities in bids are matters of form rather than substance evident from the bid document, or insignificant mistakes that can be waived or corrected without prejudice to other bidders; that is, the effect on price, quantity, quality, delivery, or contractual conditions is negligible, and waiver of the informality does not grant the bidder a competitive advantage.

The Contractor will perform the duties under this agreement as an independent contract. The City assumes no responsibility for any interpretation or representations made by any of its officers or agents unless such interpretations or representations are made by Addenda.

### **METHOD OF AWARD**

Award will be made to the lowest responsive, responsible bidder meeting all the requirements. In determining whether the lowest bidder is "responsible" the City Council shall consider:

The City Council may reject the bid of a bidder who is debarred by the City, in arrears on taxes, permits, special assessments and/or any other monies that may be due the City or who failed to perform on a previous contract with the City.

### **PURCHASE ORDER/CONTRACT**

It is the intent of the City to use purchase orders and the bidding documents to establish the contractual relationship between the City and the lowest responsive, responsible bidder. The following conditions shall apply:

- b. Liquidated damages;
- c. Termination of the contract for default;

### **INDEMNIFY AND HOLD HARMLESS**

The bidder shall defend and indemnify the City, its officers, agents, and employees, against any claims, loss, or damages arising from injury to person(s), damage to property, or economic loss, arising out of, in whole or in part, the bidder's performance or non-performance of its duties under this agreement and any defects in the goods and services provided by the bidder. This duty to defend and indemnify shall include responsibility for all damages, costs, and attorney fees. This obligation shall be continuing in nature and extend beyond the term of this agreement.

### **END OF GENERAL PROVISIONS**

## **END OF SUPPLEMENTAL CONDITIONS**

## **SCOPE OF WORK**

### **1.1 BACKGROUND**

The project job site is located in Gustavus, Alaska, at the end of Boat Harbor Road at the boat launch in the Salmon River Small Boat Harbor (SRSBH) (see Appendix A).

The City of Gustavus Small Boat Harbor is located on the tidally-influenced Salmon River. Originally built as a breastwork for barges by MK Construction during World War II, the current boat launch and barge ramp were constructed by Fairweather Construction in 2007. Since that time, the launch ramp has not knowingly been repaired or upgraded in any way other than small repairs to the boat launch floats themselves. This is the only boat launch outside of the national park in a city where most boaters have to launch and pull their boats from the water with each use. The boat launch also sees multiple landing crafts a week for most of the year.

### **1.2 SCOPE OF WORK**

This work consists of repair to the SRSBH boat launch to restore the ramp rock toe blanket. The toe blanket of the SRSBH boat launch ramp has eroded over time—see photos in Appendix B. This work consists of repairing the boat launch by adding rock to the toe area to extend the area to its original state. See original construction plan attached. Below the waterline it appears that the launch ramp has been undercut and is in danger of collapsing. The contractor will need to dig out the area below the base of the concrete boat launch and add approximately 30 yards of 6" minus rock (to be provided by the City of Gustavus) and pack it to create a hardened surface from which to launch boats. While the rock is provided by the City of Gustavus, transport of the rock will be the responsibility of the contractor. The rock is currently staged at the Disposal and Recycling Center (DRC) also located on Boat Harbor Road (see Appendix A). Hauling will need to be coordinated with the Marine Facilities Coordinator and/or the DRC Manager. All permits required for work within the Salmon River will be applied for and submitted by the City of Gustavus.

Work on this project requires coordination the City of Gustavus Marine Facilities Coordinator to determine the best time of year for the repair. Considerations for timing include requirements of any state or federal agency and use/operations of the launch ramp. The period of performance for this work is flexible, with project commencement available anytime after the contract is awarded and permitting is complete (taking into account any permit conditions). Project must be completed by May 15, 2021. Once started, it is expected the work would be completed within a week to allow continued use of the boat launch.

### **1.3 GENERAL SCOPE CONDITIONS**

The work to be performed under this contract shall consist of the following:

- a) providing all tools, equipment, materials, supplies, and manufactured articles not provided by the City; furnishing all labor, transportation, housing, and services; and
- b) performing all work or other operations required for the fulfillment of the contract.

The work shall be complete, and all work, materials, and services not expressly indicated or called for in the Scope of Work, the Contractor shall provide which may be necessary for the proper completion of the work.
