

CITY ADMINISTRATOR'S REPORT JUNE GENERAL MEETING

SALMON RIVER PARK CLEANUP & MAINTENANCE

The SRP is in need of a Spring cleanup and park maintenance. Council members will be rotating to perform general upkeep over the summer. Thanks to Mayor Cannamore and Council members McLaughlin and Buchheit for volunteering to take on the first 3 months. Also, a community SRP work **PARTY** is in the works and will be announced soon.

In addition to the cleanup, the City will be making some repairs and improvements over the next couple of months. Come out and enjoy the SRP!

ARPA

It looks like the State received the ARPA funding the week of May 24 and has 30 days to get it to the City, although they could ask for an extension because they may not be ready to roll out the funding program. Details for the use of the funds are not out, but it looks like it will be similar to the CARES Act. I'll keep you posted.

OLD POST OFFICE BLDG

Staff has inventoried the items stored in the old Post Office building. Staff will be clearing out the stored items and a worklist will be developed to begin restoration in preparation of leasing the building.
