

Zoning Board of Appeals Staff Report

TO: Zoning Board of Appeals
(ZBA)

FROM: David Rohr

HEARING DATE: May 14, 2025

SUBJECT: ZBA 25-0004

PROJECT Single Family Home

SITE: 9676 Zukey Dr.
TID 4715-22-301-003

OWNER: Richard Beaudin

APPLICANT: Richard Beaudin

PROJECT: Variance application to permit the construction of an addition to an existing detached garage. Variance requests include:

- Accessory structure front setback of 2 feet, instead of 15 feet, per section 36-215(3).
- Accessory structure height of 21.9 feet, instead of 14 feet, per section 36-215(9).

ZONING: WFR – Waterfront Residential

Project Description

Variance application to permit the second-floor addition to existing garage. Applicants are expanding the existing garage vertically, no expansion of the footprint. The garage is non-conforming. Because of the small parcel size, building anything on the parcel would require a variance(s).

Standards of Review

In accordance with Section 36-137 of the Hamburg Township Zoning Ordinance, the ZBA's decision on this matter is to be based on findings of fact to support the standards provided below. The applicable discretionary standards are listed below in **bold typeface**, followed by Staff's analysis of the request as it relates to these standards. A variance may be granted only if the ZBA finds that all of the following standards are met:

- 1. That there are exceptional or extraordinary circumstances or conditions applicable to the property involved that do not apply generally to other properties in the same district or zone.**

The applicant's parcel has an extremely limited buildable area due to the nature of the parcel and garage location. Staff support the variance request.

- 2. That such variance is necessary for the preservation and enjoyment of a substantial property right possessed by other property in the same zone and vicinity. The possibility of increased financial return shall not be deemed sufficient to warrant a variance.**

Granting these variance requests is necessary for the preservation and enjoyment of a substantial property right, as the existing garage location is very close to the front lot line.

- 3. That the granting of such variance or modification will not be materially detrimental to the public welfare or materially injurious to the property or improvements in such zone or district in which the property is located.**

The variance requests are not likely to be materially detrimental to the public welfare or materially injurious to the property or improvements in the district.

- 4. That the granting of such variance will not adversely affect the purpose or objectives of the master plan of the Township.**

Granting these variances will not adversely affect the 2020 Master plan.

5. That the condition or situation of the specific piece of property, or the intended use of said property, for which the variance is sought, is not of so general or recurrent a nature.

The condition or situation of the specific piece of property is not of a general and recurrent nature.

6. Granting the variance shall not permit the establishment with a district of any use which is not permitted by right within the district.

The site is zoned for single-family dwellings and related appurtenances. Approval of the variance request would not permit the establishment of a use not permitted by right within the district.

7. The requested variance is the minimum necessary to permit reasonable use of the land.

Staff finds that the proposed structure will have minimal impact on the surrounding properties. Staff believes the location and size of the garage is well placed and will have minimal impact on the surrounding residents.

“Practical difficulty” exists on the subject site when the strict compliance with the Zoning Ordinance standards would render conformity unnecessarily burdensome (such as exceptional narrowness, shallowness, shape of area, presence of floodplain or wetlands, exceptional topographic conditions).

Recommendation

Staff recommends the ZBA open the public hearing, take testimony, close the public hearing, evaluate the proposal for conformance with the applicable regulations, and deny or approve the application. In the motion to deny or approve the project, the ZBA should incorporate the ZBA’s discussion and analysis of the project and the findings in the staff report.

Approval Motion

Motion to approve variance application ZBA 25-0004 at 9676 Zukey Dr. TID 4715-22-301-003. Applicant requests:

- Accessory structure front setback of 2 feet, instead of 15 feet, per section 36-215(3).
- Accessory structure height of 21.9 feet, instead of 14 feet, per section 36-215(9).

The variance meets variance standards one (1) through seven (7) of Section 36-137 of the Hamburg Township Zoning Ordinance, and a practical difficulty exists on the subject site when strict compliance with the Zoning Ordinance standards is applied, as discussed at the meeting this evening and as presented in the staff report.

Denial Motion

Motion to deny variance application ZBA 25-0004 at 9676 Zukey Dr. TID 4715-22-301-003.

Applicant requests:

- Accessory structure front setback of 2 feet, instead of 15 feet, per section 36-215(3).
- Accessory structure height of 21.9 feet, instead of 14 feet, per section 36-215(9).

The variance does not meet variance standards one (1), two (2), or seven (7) of Section 36-137 of the Hamburg Township Zoning Ordinance, and no practical difficulty exists on the subject site when strict compliance with the Zoning Ordinance standards is applied, as discussed at the meeting this evening, and as presented in this staff report.
