

Zoning Board of Appeals Staff Report

TO: Zoning Board of Appeals
(ZBA)

FROM: David Rohr

**HEARING
DATE:** October 9, 2024

SUBJECT: ZBA 24-0007

**PROJECT
SITE:** Single Family Home
10232 Buhl Dr.
TID 15-27-101-046

OWNER: Todd and Katie Hallett

APPLICANT: Todd and Katie Hallett

PROJECT: Variance application to permit the construction of a detached pole barn on non-waterfront lot. Applicant requests a 1,407 sq ft variance from the maximum accessory structure size of 800 sq ft., per Section 36-215(11)(c).

ZONING: WFR, Waterfront Residential

Project Description

The applicant is requesting a variance to permit the construction of a detached pole barn on non-waterfront lot. Applicant requests a 1,407 sq ft variance from the maximum accessory

structure size of 800 sq ft., per Section 36-215(11)(c). Applicant's parcel has two existing 20x20sqft garages.

Standards of Review

In accordance with Section 36-137 of the Hamburg Township Zoning Ordinance, the ZBA's decision on this matter is to be based on findings of fact to support the standards provided below. The applicable discretionary standards are listed below in **bold typeface**, followed by Staff's analysis of the request as it relates to these standards. A variance may be granted only if the ZBA finds that all of the following standards are met:

- 1. That there are exceptional or extraordinary circumstances or conditions applicable to the property involved that do not apply generally to other properties in the same district or zone.**

The applicant's parcel (non-waterfront lot) is a large lot (20,750sq ft). Because of this, applicant does not need any setback or lot coverage variance(s). Considering the large parcel size, the proposed pole barn will have minimal effect of the area.

Because of the large parcel size, staff supports the variance request.

- 2. That such variance is necessary for the preservation and enjoyment of a substantial property right possessed by other property in the same zone and vicinity. The possibility of increased financial return shall not be deemed sufficient to warrant a variance.**

Granting this variance request is necessary for the preservation and enjoyment of a substantial property right, as there is extensive buildable area, yet applicant is limited by maximum structure size.

- 3. That the granting of such variance or modification will not be materially detrimental to the public welfare or materially injurious to the property or improvements in such zone or district in which the property is located.**

The variance request is not likely to be materially detrimental to the public welfare or materially injurious to the property or improvements in the district.

- 4. That the granting of such variance will not adversely affect the purpose or objectives of the master plan of the Township.**

One of the goals of the 2020 master plan is to "Protect, preserve, and enhance whenever possible the unique and desirable natural amenities of Hamburg Township" the Master

Plan discusses preserving and maintaining the existing character of parcels along lakes. Granting of this variance request will not adversely affect the master plan.

5. That the condition or situation of the specific piece of property, or the intended use of said property, for which the variance is sought, is not of so general or recurrent a nature.

The condition or situation of the specific piece of property is not of a general and recurrent nature.

6. Granting the variance shall not permit the establishment with a district of any use which is not permitted by right within the district.

The site is zoned for single-family dwellings and related appurtenances. Approval of the variance request would not permit the establishment of a use not permitted by right within the district.

7. The requested variance is the minimum necessary to permit reasonable use of the land.

Staff finds that the proposed structure size will have minimal impact on the surrounding properties. Staff believes the location of the proposed structure is well placed and will have minimal impact on the surrounding residents.

“Practical difficulty” exists on the subject site when the strict compliance with the Zoning Ordinance standards would render conformity unnecessarily burdensome (such as exceptional narrowness, shallowness, shape of area, presence of floodplain or wetlands, exceptional topographic conditions).

Recommendation

Staff recommends the ZBA open the public hearing, take testimony, close the public hearing, evaluate the proposal for conformance with the applicable regulations, and deny or approve the application. In the motion to deny or approve the project, the ZBA should incorporate the ZBA’s discussion and analysis of the project and the findings in the staff report.

Approval Motion

Motion to approve variance application to permit the construction of a detached pole barn on non-waterfront lot. Applicant requests a 1,407 sq ft variance from the maximum accessory structure size of 800 sq ft., per Section 36-215(11)(c).

The variance meets variance standards one (1) through seven (7) of Section 36-137 of the Hamburg Township Zoning Ordinance, and a practical difficulty exists on the subject site when strict compliance with the Zoning Ordinance standards is applied, as discussed at the meeting this evening and as presented in the staff report.

Denial Motion

Motion to deny variance application to permit the construction of a detached pole barn on non-waterfront lot. Applicant requests a 1,407 sq ft variance from the maximum accessory structure size of 800 sq ft., per Section 36-215(11)(c).

The variance does not meet variance standards one (1), two (2), or seven (7) of Section 36-137 of the Hamburg Township Zoning Ordinance, and no practical difficulty exists on the subject site when strict compliance with the Zoning Ordinance standards is applied, as discussed at the meeting this evening, and as presented in this staff report.
