Subject: Hamburg Township – Preliminary Estimate

Hi Duane,

Thanks again for sending everything over and for taking the time to walk us through your current setup.

Based on what we've reviewed so far, I wanted to share a **very rough ballpark estimate** that you can use for your upcoming committee discussion.

At a high level, I expect the **one-time setup cost to range from \$7,500 - \$15,000**, plus an **annual subscription of \$1,299/year**.

This is still an early estimate. From what we're seeing, your burial data appears to be in good shape and tied to plots, which is helpful. That said, we'll likely want to take a closer look at the maps and overall layout, ownership data, and any additional materials from BS&A to better understand the full scope and narrow the pricing.

If this general range feels workable on your end, the next step would be to schedule a quick materials review call after your meeting so we can go through everything together and put together a more detailed proposal.

Please feel free to reach out if any questions arise in the meantime. I'm happy to help!

Have a great weekend,

Amber
