Re: Fertilizer and Weed Control RFP

Last month we sent out a request for proposal to lawn care companies regarding fertilization and weed control of the baseball/softball fields, football fields, township/police/senior center grounds, and the soccer fields. We specified a three year bid as the length of the contract. This allows us to have some continuity with one vendor and avoid an annual RFP for these services.

We sent out the RFP to five companies and received three replies. The companies who responded were: Green Guys Lawn and Landscape, Green Pastures, and Lush Lawn. The attached spreadsheet shows the breakdown of the three bids.

I recommend that we select Green Pastures as our vendor to perform the fertilization and weed control on our fields and grounds for the next three years. In addition to submitting the lowest bid, Green Pastures has also been our contractor for the last three years and has performed very well. Green Pastures uses slow-release fertilizer which has maintained a dense, even consistency on our turf all season.
