**Subject:** Opioids - \*Important\* Settlement Participation Forms Coming Soon

Good afternoon,

I'm emailing to inform you of an upcoming opportunity for [REDACTED] to participate in more opioid settlements.

In the coming days, you will receive an email with participation forms for new national opioid settlements. The new national opioid settlements are the Teva National Settlement, Allergan National Settlement, CVS National Settlement, and Walmart National Settlement\*. If Waterford Charter Township chooses to participate, Waterford Charter Township will receive direct payments from these settlements.

The participation email will also contain a copy of the proposed Michigan State-Subdivision Agreement for these settlements. This document determines the distribution between the State and Local Subdivisions, and it determines the allocation amount to each Local Subdivision. This Agreement is in the process of ratification.

A conservative estimate of [REDACTED]'s projected amount for each settlement is included below. This estimate assumes 100% participation among Local Subdivisions like yourself. **The deadline to submit your participation forms is April 18.** Details on completing your participation forms will be contained in the participation email.

Thank you. If you have any questions, please email AG-OpioidLitigation@michigan.gov.

Sincerely,  
Assistant Attorney General Matt Walker

\*At this time, Michigan has not joined the Walgreens National Settlement. The Michigan Department of Attorney General continues to work on a resolution pertaining to Walgreens.
