
VILLAGE BOARD MEETING

From: Chad Pelishek, Assistant Village Manager

VILLAGE OF HARRISON

Meeting Date: 1/28/2025

Title: Purchase of a new speaker sound system for the Board Room

Issue: Does the Village Board working with Camera Corner/Connecting Point to provide and install new sound system with request to speak options in the Village Hall Board Room.

Background and Additional Information:

Two local companies provide wireless microphone systems and also can provide support for installation and operation. Amplify Technologies' bid for a 10-mic wireless system was \$36,900 and from Camera Corner the 10-mic wireless system with an allowance of \$5,000 to assist in set up is \$27,196. The 10 mics would be used as follows: 7 for Trustees, 2 for staff and 1 for public comments.

The Shure wireless mic system was recommended from the City of Appleton IT Director as Appleton has used the system in their council room for many years. This wireless system also allows the speakers to be put in a queue and allowed to speak by the chair of the meeting.

Staff recommends proceeding with Camera Corner/Connecting Point option for \$27,196.

Budget: This has not been budgeted and would need to be taken from the contingency amount.

Recommended Action: Motion to approve the \$27,196 to provide and install new sound system in Village Board room.
