VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From:
Chad Pelishek, Village Manager

Meeting Date:
September 21, 2026

Title: 2026 Ford F-600 Dump Box: Intent to Purchase

Recommended Action:
Motion to approve the Village's intent to purchase a 2026 Ford F-600 dump box truck from L&S Truck Center for a net cost of $62,848.50, after applicable rebates and trade-in allowance for the Village's existing 2017 Ford F-550.

Background and Additional Information:
The Village's 2017 Ford F-550 dump truck has reached a point where continued operation and repair are no longer cost-effective. The truck requires more than $10,000 in immediate repairs, including:

- Transmission repairs;
- Repair of hydraulic-fluid leaks;
- Replacement or repair of rusted-out dump-truck mechanism components; and
- Additional work needed to maintain reliable service during winter operations.

Given the truck's condition, investing substantial funds into repairs would not address the ongoing concerns associated with an aging vehicle and deteriorated dump-box and hydraulic components.

L&S Truck Center has identified a 2026 Ford F-600 dump box truck that can be reserved for Harrison. The proposed net purchase price is $62,848.50, inclusive of available rebates and the trade-in of the 2017 Ford F-550. L&S Truck Center is a state negotiated vendor.

Reserving the truck now provides the Village with the opportunity to secure a vehicle that meets operational needs for snow and ice control, hauling, and public works operations. The anticipated January arrival allows the required salter and front plow equipment to be installed and prepared for service.

Completing final delivery after January 1, 2027, will align the expenditure with the Village's 2027 accounting and budget cycle while ensuring the truck is equipped and ready for winter operations.

Budget Impacts: The Village will not take ownership until 2027, and this is a budgeted item for 2027 in the Capital Improvements Plan.
