Said regulations have been recorded as Document Number 331468, Calumet County Register of Deeds and shall apply to all subdivisions approved after the 1st day of May, 2001. Said recording shall have the effect of deed restrictions requiring that permanent laws be established in conformance with the lot drainage plan elevations within one year after initial occupancy of any house. The costs and expenses shall be entered on the tax roll as a special charge against the property and collected with other taxes levied thereon.
- Building permits and occupancy permits may be withheld for non-compliance with the plat or Village Ordinances relating to drainage and storm water management.
- In the event that the surface drainage facilities required by the plat which are applicable to the lot for which a building permit has been applied, have not been complied with, the building inspector may withhold building permits required by the building code.
- In the event that, after construction there is a failure to establish surface grades in accordance with the subdivision surface water plan, the building inspector may withhold the occupancy permit required by the building code.

- Upon failure of the Owner/Subdivider to perform maintenance of the drainageways and associated structures, the Village of Harrison retains the right to perform maintenance and/or repairs. The payments of said maintenance and/or repairs shall be equally assessed among the property owners of the plat.
- A drainage plan has been filed with the Village of Harrison which states the required levels of maintenance for all the identified storm water management systems/facilities.
